Print Date 27.09.2018

Page 1 (11)

### ***1. Identification of the substance/mixture and of the company/undertaking***

#### **1.1 Product identifier**

Trade name : BICYCLONONALACTONE  
 Registration number : 01-2120746527-47-0000  
 SDS Number : R00000003484  
 Substance name : octahydro-2H-1-benzopyran-2-one  
 Substance No. : 224-623-4

#### **1.2 Relevant identified uses of the substance or mixture and uses advised against**

Use of the Substance/Mixture : Ingredient used in Flavour and/or Fragrance preparations

#### **1.3 Details of the supplier of the safety data sheet**

Company : IFF (GB) Limited  
 DUDDERY HILL  
 CB9 8LG HAVERHILL  
 United Kingdom  
 Telephone : +441440715000  
 Telefax : +441440762199  
 E-mail address : sds@iff.com  
 Responsible/issuing person

#### **1.4 Emergency telephone number**

Refer to section 16 for country specific emergency contact number.

### ***2. Hazards identification***

#### **2.1 Classification of the substance or mixture**

**Classification (REGULATION (EC) No 1272/2008)**

Serious eye damage, Category 1

H318: Causes serious eye damage.

#### **2.2 Label elements**

**Labelling (REGULATION (EC) No 1272/2008)**

Hazard pictograms :

Signal word : Danger

Version : 4.20

Revision Date : 03.09.2018

## INTERNATIONAL FLAVORS & FRAGRANCES

Product BICYCLONONALACTONE

Print Date 27.09.2018

Page 2 (11)

Hazard statements : H318 Causes serious eye damage.

Precautionary statements : **Prevention:**  
P280 Wear protective gloves/ eye protection/ face protection.

**Response:**  
P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

### 2.3 Other hazards

None reasonably foreseeable.

## 3. Composition/information on ingredients

### 3.1 Substances

Chemical name of the substance : octahydro-2H-1-benzopyran-2-one  
Chemical characterization : lactones  
Molecular formula : C<sub>9</sub>H<sub>14</sub>O<sub>2</sub>  
Molecular weight : 154,04 g/mol  
CAS-No. : 4430-31-3  
EINECS-No. : 224-623-4  
REACH No. : 01-2120746527-47-0000

### Hazardous components

Chemical name	CAS-No. EC-No.	GHS Classification	Concentration [%]
octahydro-2H-1-benzopyran-2-one	4430-31-3 224-623-4	Eye Dam.1; H318	90 - 100

For the full text of the H-Statements mentioned in this Section, see Section 16.

### 3.2 Mixtures

Not applicable, product is a substance.

Version : 4.20  
Revision Date : 03.09.2018

### 4. First aid measures

#### 4.1 Description of first aid measures

- General advice : Take Hazard and Precautionary phrases (section 2) into account.
- If inhaled : Remove from exposure site to fresh air and keep at rest. If victim is unconscious, remove foreign bodies from the mouth. If victim has stopped breathing, give artificial respiration. Obtain medical advice.
- In case of skin contact : Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.
- In case of eye contact : Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.
- If swallowed : Rinse mouth with water and obtain medical advice.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Symptoms : No information available.
- Risks : No information available.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- Treatment : No information available.

### 5. Firefighting measures

#### 5.1 Extinguishing media

- Suitable extinguishing media : Carbondioxide, dry chemical, foam.
- Unsuitable extinguishing media : Do not use a direct waterjet on burning material.

#### 5.2 Special hazards arising from the substance or mixture

- Specific hazards during firefighting : Water may be ineffective.

#### 5.3 Advice for firefighters

- Further information : Standard procedure for chemical fires.

Version : 4.20  
Revision Date : 03.09.2018

Page 4 (11)

### 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.

#### 6.2 Environmental precautions

Environmental precautions : Keep away from drains, surface- and groundwater and soil.

#### 6.3 Methods and materials for containment and cleaning up

Methods for cleaning up : Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

#### 6.4 Reference to other sections

Prevent spreading over a wide area (e.g. by containment or oil barriers).

### 7. Handling and storage

#### 7.1 Precautions for safe handling

Advice on safe handling : Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.

If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees.

Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air.

Advice on protection against fire and explosion : Keep away from ignition sources and naked flame.

#### 7.2 Conditions for safe storage, including any incompatibilities

Version : 4.20

Requirements for storage areas and containers : Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.

### 7.3 Specific end use(s)

Specific use(s) : No information available.

## 8. Exposure controls/personal protection

### 8.1 Control parameters

Contains no substances with occupational exposure limit values.

### 8.2 Exposure controls

#### Engineering measures

Where appropriate, use closed systems to transfer and process this material.  
If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

#### Personal protective equipment

Respiratory protection : Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures.  
No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.

If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:

- a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or
- b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or
- c) if normal operational workplace vapor concentration in the air is increased due to heat ;
- d) during emergencies; or
- e) if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational

exposure limit.

Hand protection : Avoid skin contact. Use chemically resistant gloves.

Eye protection : Use tight-fitting goggles, face shield or safety glasses with side shields if eye contact might occur.

Hygiene measures : To the extent deemed appropriate, implement pre-placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to this material.  
To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air to determine potential exposures and to ensure the continuing effectiveness of engineering controls and operational practices to minimize exposure.

### Environmental exposure controls

General advice : Keep away from drains, surface- and groundwater and soil.

## 9. Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

Appearance : liquid  
Colour : colorless  
Odour : conforms to standard  
Odour Threshold : not determined  
Flash point : 113 °C  
Lower explosion limit : not determined  
Upper explosion limit : not determined  
Flammability (solid, gas) : not determined  
Oxidizing properties : not determined  
Auto-ignition temperature : not determined  
pH : not determined  
Melting point : not determined  
Boiling point : not determined  
Vapour pressure : < 0,01 hPa  
Density : not determined  
Water solubility : not determined  
Partition coefficient: n-octanol/water : log Pow: 2,520

Version : 4.20

Solubility in other solvents : not determined  
Viscosity, dynamic : not determined  
Viscosity, kinematic : not determined  
Relative vapour density : not determined  
Evaporation rate : not determined

### 9.2 Other information

Refractive index : not determined  
Relative density : 1,0860 - 1,0930

## 10. Stability and reactivity

### 10.1 Reactivity

No hazards to be specially mentioned.

### 10.2 Chemical stability

Stable under normal conditions.

### 10.3 Possibility of hazardous reactions

Hazardous reactions : Note: Presents no significant reactivity hazard, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.

### 10.4 Conditions to avoid

Conditions to avoid : Direct sources of heat.

### 10.5 Incompatible materials

Materials to avoid : Avoid contact with strong acids, alkali or oxidizing agents.

### 10.6 Hazardous decomposition products

Hazardous decomposition products : Carbon monoxide and unidentified organic compounds may be formed during combustion.

## 11. Toxicological information

### 11.1 Information on toxicological effects

#### Acute toxicity

Acute oral toxicity : LD50: 3.900 mg/kg  
Species: Rat  
Remarks: RIFM

Version : 4.20

Revision Date : 03.09.2018

# SAFETY DATA SHEET

---

Acute dermal toxicity : LD50: 3.500 mg/kg  
Species: Rabbit

### Skin corrosion/irritation

Skin irritation : No information available.  
Skin irritation : Species: human  
Result: No skin irritation  
Method: repeated insult patch test  
  
: Species: Rabbit  
Result: Mild skin irritation  
Exposure time: 24 h

### Serious eye damage/eye irritation

No information available.

### Respiratory or skin sensitisation

No information available.

Sensitisation : Species: human  
Result: Did not cause sensitisation on laboratory animals.  
Test substance: 10% in solvent  
  
: maximisation study  
Species: human  
Result: Did not cause sensitisation on laboratory animals.  
Test substance: 8.0% in petrolatum

### Germ cell mutagenicity

No information available.

### Carcinogenicity

No information available.

### Reproductive toxicity

No information available.

### Target Organ Systemic Toxicant - Single exposure

No information available.

### Target Organ Systemic Toxicant - Repeated exposure

No information available.

### Aspiration hazard

### **12. Ecological information**

#### **12.1 Toxicity**

#### **12.2 Persistence and degradability**

No information available.

Biodegradability : Result: Not readily biodegradable.  
9 %  
Method: Directive 67/548/EEC Annex V, C.4.B.

#### **12.3 Bioaccumulative potential**

No information available.

#### **12.4 Mobility in soil**

#### **12.5 Results of PBT and vPvB assessment**

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

#### **12.6 Other adverse effects**

No information available.

### **13. Disposal considerations**

#### **13.1 Waste treatment methods**

Product : Dispose of according to local regulations. Avoid disposing into drainage systems and into the environment.

Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

### **14. Transport information**

#### **ADR**

Not dangerous goods

Environmentally hazardous : no

#### **IATA**

Not dangerous goods

#### **IMDG**

Not dangerous goods

**Special precautions for user** : No special precautions required.

### 15. Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Water contaminating class : WGK 2 significantly water endangering  
(Germany)

#### 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance.

### 16. Other information

#### Full text of H-Statements referred to under sections 2 and 3.

H318 Causes serious eye damage.

#### Further information

In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110].

In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace".

Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in the workplace and you are strongly urged to review both of these reports.

The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration  $\geq 1.0\%$  due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

According to Regulation (EC) No. 1907/2006 the information in this safety data sheet is based on the properties of the material known to IFF at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment International Flavors & Fragrances holds no responsibility. This document is not intended for quality assurance purposes.
