

Product HYACINTH BODY BHT Print Date 09.02.2016

Page 1 (9)

1. Identification of the substance/mixture and of the company/undertaking **1.1 Product identifier** Trade name : HYACINTH BODY BHT MSDS Number : R00000224354 1.2 Relevant identified uses of the substance or mixture and uses advised against Use of the Substance/Mixture : Ingredient used in Flavour and/or Fragrance preparations 1.3 Details of the supplier of the safety data sheet Company : IFF (GREAT BRITAIN) LTD. **DUDDERY HILL CB9 8LG HAVERHILL** Telephone +441440715000Telefax : +441440762199 E-mail address : sds@iff.com Responsible/issuing person

1.4 Emergency telephone number

 $+44\ 1440\ 7\ 15000$

2. Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.3 Other hazards

None reasonably foreseeable.

3. Composition/information on ingredients

3.1 Substances

Chemical name of the substance: [2-(1-ethoxyethoxy)ethyl]benzeneChemical characterization: aromatic acetalsMolecular formula: C12H18O2

Version Revision Date : 3.3 : 06.01.2016

Product	HYACINTH BODY BHT	
Print Date	09.02.2016	Page 2 (9)
Molecular weight CAS-No.	: 194,30 g/mol : 2556-10-7	

Remarks : For the full text of the R-phrases mentioned in this Section, see Section 16.

: 219-868-9

3.2 Mixtures

EINECS-No.

Not applicable, product is a substance.

4. First aid measures	4. First aid measures		
4.1 Description of first aid measures			
General advice	: Take Risk and Safety phrases (section 15) into account.		
If inhaled	: Remove from exposure site to fresh air and keep at rest. Obtain medical advice.		
In case of skin contact	: Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.		
In case of eye contact	: Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.		
If swallowed	: Rinse mouth with water and obtain medical advice.		
4.2 Most important symptoms and e	4.2 Most important symptoms and effects, both acute and delayed		
Symptoms	: No information available.		
Risks	: No information available.		
4.3 Indication of any immediate med	ical attention and special treatment needed		
Treatment	: No information available.		
5. Firefighting measures			
5.1 Extinguishing media			
Suitable extinguishing media	: Carbondioxide, dry chemical, foam.		
Unsuitable extinguishing media	: Do not use a direct waterjet on burning material.		
5.2 Special hazards arising from the substance or mixture			

Product	HYACINTH BODY BHT
Print Date	09.02.2016 Page 3 (9)
Specific hazards during firefighting 5.3 Advice for firefighters	: Water may be ineffective.
Further information	: Standard procedure for chemical fires.
6. Accidental release	measures
6.1 Personal precautions, pro	tective equipment and emergency procedures
Personal precautions	: Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.
6.2 Environmental precaution	ns
Environmental precaution	: Keep away from drains, surface- and groundwater and soil.
6.3 Methods and materials fo	r containment and cleaning up
Methods for cleaning up	: Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.
6 1 Deference to other section	

6.4 Reference to other sections

Prevent spreading over a wide area (e.g. by containment or oil barriers).

7. Handling and storage

0	0
7.1 Precautions for safe hand	ling
Advice on safe handling	 Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use. If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual
	chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees. Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air.

Product	HYACINTH BODY BHT	
Print Date	09.02.2016	Page 4 (9)
Advice on protection aga fire and explosion	inst : Keep away from ignition sources and naked	flame.
7.2 Conditions for safe storage	ge, including any incompatibilities	
Requirements for storage and containers	areas : Store in a cool, dry, ventilated area away from containers upright and tightly closed when no	1
7.3 Specific end use(s)		
Specific use(s)	: No information available.	

8. Exposure controls/personal protection

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Engineering measures

Where appropriate, use closed systems to transfer and process this material. If appropriate, isolate mixing rooms and other areas where this material is used or openly handled. Maintain these areas under negative air pressure relative to the rest of the plant.

Personal protective equipment

Respiratory protection :	Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures. No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.
	If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:
	 a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or c) if normal operational workplace vapor concentration in the air is increased due to heat; d) during emergencies; or

Hand protection Eye protection	 e)if engineering controls and operational practices are n to reduce airborne concentrations below an established exposure limit. Avoid skin contact. Use chemically resistant gloves. Use tight-fitting goggles, face shield or safety glasses w shields if eye contact might occur. 	occupational
Hygiene measures	 To the extent deemed appropriate, implement pre-place regularly scheduled ascertainment of symptoms and spi testing of lung function for workers who are regularly e this material. To the extent deemed appropriate, use an experienced a expert to identify and measure volatile chemicals that co present in the workplace air to determine potential expo ensure the continuing effectiveness of engineering contr operational practices to minimize exposure. 	rometry xposed to ir sampling ould be osures and to
Environmental exposure	controls	
General advice	: Keep away from drains, surface- and groundwater and s	soil.

9. Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance	: liquid
Colour	: colorless
Odour	: not determined
Odour	: conforms to standard
Odour Threshold	: not determined
Flash point	: >94 °C
Lower explosion limit	: not determined
Upper explosion limit	: not determined
Flammability (solid, gas)	: not determined
Oxidizing properties	: not determined
Auto-ignition temperature	: not determined
pH	: not determined
Melting point	: not determined
Boiling point	: not determined
Vapour pressure	: not determined
Vapour pressure	: 0,03 hPa Calculated
Density	: not determined

11. Toxicological information

11.1 Information on toxicological effects

Acute toxicity

Product H	IYACINTH BODY BHT	
Print Date 0	9.02.2016	Page 7 (9
Acute oral toxicity	: LD50: > 5.000 mg/kg Species: Rat Remarks: RIFM	
Acute dermal toxicity	: LD50: > 5.000 mg/kg Species: Rabbit	
Skin corrosion/irritation		
Skin irritation Skin irritation	 No information available. Species: human Result: No skin irritation Method: closed patch test Exposure time: 48 h 	
Serious eye damage/eye irr	itation	
No information available. Respiratory or skin sensiti s	sation	
No information available. Sensitisation	 maximisation study Species: human Result: Did not cause sensitisation on laboratory Test substance: 5% in petrolatum 	7 animals.
Germ cell mutagenicity		
No information available. Carcinogenicity		
No information available. Reproductive toxicity		
No information available. Target Organ Systemic To	xicant - Single exposure	
No information available. Target Organ Systemic To	xicant - Repeated exposure	
No information available. Aspiration hazard		
Aspir ation nazaru		

Product	HYACINTH BODY BHT	
Print Date	09.02.2016	Page 8 (9)
No information available. 12.3 Bioaccumulative potential		
No information available. 12.4 Mobility in soil		
No information available. 12.5 Results of PBT and vPvB a	issessment	
12.6 Other adverse effects		
No information available.		
13. Disposal considera	tions	
13.1 Waste treatment methods		
Product	: Dispose of according to local regulations. Avoid disport drainage systems and into the environment.	osing into
Contaminated packaging	: Empty containers should be taken to an approved was site for recycling or disposal.	te handling
14. Transport informa	tion	
ADR Not dangerous goods Environmentally hazardous IATA Not dangerous goods IMDG Not dangerous goods	 no No special precautions required. 	

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Additional Info		: Not a hazardous substance or mixture according to EC-directives
		67/548/EEC or 1999/45/EC.
Water contaminating class	:	WGK 2water endangering Classification according to appendix 3
(Germany)		

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out for this product.

Product HYACINTH BODY BHT Print Date 09.02.2016

16. Other information

Full text of H-Statements referred to under sections 2 and 3.

In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110]. In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace".

Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in the workplace and you are strongly urged to review both of these reports.

The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration $\geq 1.0\%$ due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

According to Regulation (EC) No. 1907/2006 the information in this safety data sheet is based on the properties of the material known to IFF at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances, under which it is packaged, stored or applied in the workplace. For such a safety assessment International Flavors & Fragrances holds no responsibility. This document is not intended for quality assurance purposes.
